UNITED POWER STEERING FLUID

United Power Steering Fluid is manufactured from highly refined base oils and chemical additives to meet a lot of passenger car or commercial vehicle performance demands, such as for Ford, General Motors, Mercedes Benz, Chrysler, Honda, Toyota, Mitsubishi, Nissan, Hyundai, Kia and so on. United Power Steering Fluid also meets Allison C-3 fluid and is qualified as a PSF, TASA specification.

United Power Steering Fluid is essential as it less thus lubricates and transmits the pressure needed for power-assisted steering with minimum sludge and deposit created. It's compatible to most hose and seal used in the power steering system. United Power Steering Fluid is recommended for power steering system, mobile equipment used by utility companies, hydraulic systems which require electrical insulating properties for their lubrication.

APPLICATIONS / BENEFITS

☐ Provides excellent friction, oxidation and thermal stability.
☐ Outstanding anti-wear properties.
☐ Improves hydrolytic stability.
☐ Better cold temperature flow properties than SAE 10W motor oil.
